Re: Statements Regarding Evidence Related to Pima County 2020 General Election

Dear Rep. Finchem:

I am writing in regards to statements made at a televised rally on October 9, 2021. According to video footage from the event, and a transcript posted on your website, www.votefinchem.com, you stated, "We had a whistleblower who sent an email not just to the DOJ but to every single legislator saying, there's 34,000 or 35,000 fictitious voters, and they've been inserted in system, and we're going to never find them. Well, we believe we found them."

Based on a review of evidence submitted to the Attorney General's Office through its Elections Integrity Unit ("EIU"), the EIU was unable to find that any evidence submitted to the EIU pertaining to allegations that 34,000 – 35,000 votes were "inserted" into Pima county's system during the 2020 General Election. If you would like the EIU to review the evidence you purport to possess, please submit the evidence to the EIU at your earliest convenience. Alternatively, please provide information as to when you may be able to deliver the evidence to the EIU for review. Until such time as the evidence is received by the EIU, the EIU can take no further action.

Sincerely,

A handwritten signature in blue ink that reads "Jennifer Wright".

Jennifer Wright
Assistant Attorney General
