Overview for the AZ Election Systems Security Assessment

Why is Secretary of State Taking on a Comprehensive Cyber Security Assessment?

- Designated critical infrastructure – need to ensure the integrity of the election process
- Maintain confidentiality of State voter information
- Protection of the State's national reputation
- Maintain citizen trust

What Secretary of State Will Accomplish with the Assessment?

- Security maturity assessment (people-process-technology) of Secretary of State's current election security posture, conducted by cyber professionals with deep experience in elections security
- Real-world intelligence-based election system threat scenario testing, i.e. more than simple technical/penetration testing
- Detailed roadmap to close security gaps, reduce risk, and guide AZSOS investments in cybersecurity going forward

Actionable recommendations resulting from the assessment will enable numerous "quick wins" to improve protection prior to the upcoming election, as well as elevate election security maturity over time to the level necessary to mitigate current and reasonably anticipated future risks.

Election Systems Security Assessment: Independent, Objective and Measured Against Peers

Comparing Election System Cybersecurity Maturity to Peers and Recommended Target Maturity

- A measure of the required future-state – or target – level of security maturity – how capable should AZSOS be in protecting itself, which facilitates the definition of "how much security is enough" *specific to the election mission*.
- A comparison of the current-state level of security maturity to similar peers provides context for understanding election systems leading practice approaches.
- A measure of the level of risk exposure resulting from the current level of security maturity facilitates development and maintenance of the appropriate defense-in-depth and defense-in-context security approach.

Gartner's critical mission-specific experience is built on more than 300 assessments conducted over the past 7 years in all jurisdictions of state, local, and federal government. Recent States include South Carolina, Texas and California. Gartner analysts regularly advise government leadership on approaches to effective cybersecurity protection.

Go beyond best-practices by stress-testing the State's election systems using the real-world attack techniques in-use today by known threats

Gather and Execute on Current Cyber-Threat Intelligence to "Reality Check" the Election Process

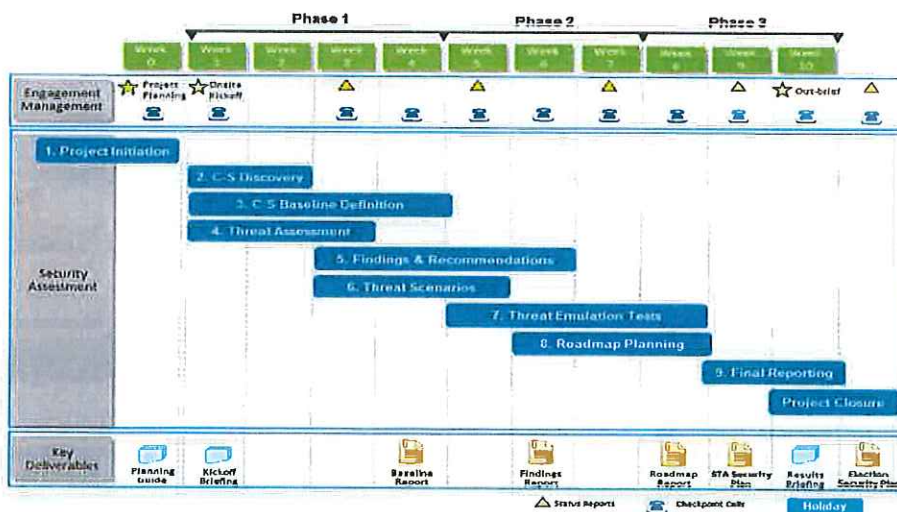

- Develop an understanding and testing mechanisms for advanced, intelligence-based threats focusing on real-world bad actors (including sophisticated nation-state actors) that are most likely to target the State's election process and the supporting infrastructure, personnel, and operations.
- Using operationally proven experience, develop multiple advanced, realistic scenarios based on real-world attacks that mirror the most likely threats from advanced threat actors and their behavior against the State's election process and systems.
- Advanced attacker teams emulate all key aspects of the identified threat actors, including advanced reconnaissance, social engineering, elicitation, access etc. against State election systems and connected entities.
- Gain technical assurance by assessing the complex critical infrastructure upon which the election process is based using what is considered by the cybersecurity industry as the most realistic form of assurance service.

RE: FY2013 beginning July 19, 2012 through April 30, 2018 for Not-Referred Non-DOR Uncollectible Debt Report
FY2017 beginning May 1, 2017 through April 30, 2018, FY2018 Referred Non-DOR Uncollectible Debt Report
FY2017 beginning July 1, 2016 through June 29, 2017 DOR Uncollectible Debt Report

Dear Senator Kavanagh:

As requested by the Joint Legislative Budget Committee ("JLBC") pursuant to A.R.S. § 35-150(E), enclosed are the FY2013 beginning July 19, 2012 through April 30, 2018 for Not-Referred Non-DOR Uncollectible Debt Report, FY2017 beginning May 1, 2017 through April 30, 2018, FY2017 Referred Non-DOR Uncollectible Debt Report and the FY2017 DOR Uncollectible Debt Report ("the Reports").

The Reports include: 1) debt owed to the State that was referred to the Collection Enforcement Revolving Fund ("CERF") for collection and determined to be uncollectible; and 2) debt owed to the Department of Revenue ("DOR") and other State agencies, boards and commissions that was not referred to the CERF and was deemed uncollectible by the agencies. With respect to the DOR debt listed in the Reports as uncollectible, for FY 2017 the Attorney General's Office is relying upon the certification by DOR set forth in the memorandum dated May 24, 2018, from DOR to the Attorney General's Office and entitled, "Fiscal Year 2017 Certification of Cases for Abatement" ("Certification"). The Certification states that the debt described in the Certifications meets the criteria pursuant to A.R.S. § 42-1004B, and for liabilities discharged in bankruptcy, pursuant to the United States Bankruptcy Code, and that DOR has validated through its internal policies and process that it verified the reasons for

abatement, as stated in the Certifications, and that they are true and accurate.

With respect to the debt owed to State agencies other than DOR that was not referred to CERF, each respective agency Director certified that the agency has validated through its internal policies and processes that it verified the reasons for abatement, as stated in the Certifications, and that they are true and accurate.

The reporting of a debt as uncollectible, including the act of the State abating the debt, does not necessarily preclude the State from reopening a case and collecting a debt owed to the State at a later date. At times, we have been able to reopen a case and collect a debt because we have identified a debtor's assets or revenue source that previously did not exist or was not able to be located. There are three exceptions to when the State would be able to pursue a debtor post-abatement. They are: 1) debts discharged in bankruptcy; 2) debts where the statute of limitations has expired; and 3) debts that the State has agreed to settle for a lesser amount than what was owed.

The Reports provide a reason each debt is deemed uncollectible. The reasons include case settled, debtor deceased, unable to locate debtor, collection costs would exceed the amount to be collected, debtor has neither assets nor wages, debtor lives and/or works on a Reservation, debt discharged in bankruptcy and Corporation/LLC defunct.

Finally, the Reports also provide the amount uncollected for each debt. This amount may include all or a portion of the original debt and, if applicable, all or a portion of interest and penalties associated with the debt.

Please contact either of the undersigned if you have any questions:

Sincerely,
