

Exhibit C

Petition

Address illegal land disposition in Peoria, AZ

The Issue

Being a resident in the impacted area in Peoria, AZ, I've witnessed firsthand the detrimental effects of the city's disregard for proper protocol. The city's land was given away without following the ARS Statutes, directly violating the land disposition laws and the gift clause meant to protect our community. This oversight not only jeopardizes the legal framework that governs our city but also undermines the trust and welfare of its residents.

The ARS Statutes are in place to ensure transparency, accountability, and fairness in the disposition of public land. When these statutes are not adhered to, it creates room for governance that is opaque and potentially biased. Such actions disrupt the community's faith in public processes designed to safeguard our mutual interests. The specific statutes, designed to protect constituents' interests, mandate that certain procedures and evaluations are followed before public land can be reallocated or sold.

In failing to observe these protocols, the city not only risks legal repercussions but also neglects its duty to its residents. The gift clause is another critical component of this conversation. This clause was circumvented in the recent dealings, threatening fiscal responsibility and fairness. The gift clause expressly forbids cities from providing subsidies or gifts of public land to private entities without clear public benefit, ensuring that any such actions genuinely serve the public's interest.

It is essential for the Attorney General to investigate these violations thoroughly. The consequences of these actions, if left unchecked, could set a dangerous precedent for future governance in Peoria, AZ.

Please join me in urging the Attorney General to address this pressing issue, enforce the law, and restore integrity to our city's land disposition practices by signing this petition.
